

Maths Confidence for Life and Work (Beginners)

Course Level: Entry Level

Campus: Newcastle

Subject Type: Science & Maths

Course Overview:

Would you like to be more confident with numbers to help you to improve your budgeting skills and personal finances? This short course will help you to develop techniques and an understanding of household bills, graphs, charts and percentages.

What's Covered:

Delivered online, this is a flexible course where you can study at a time to suit you, with the support of an online tutor.

Our understanding team will help you to overcome your anxieties and worries about maths whatever your level, giving you confidence to work with numbers. We will help you see the point of developing maths skills, so your everyday and/or working life become easier to manage. You will develop your skills in problem-solving, analysing and decision-making.

Do you need to brush up on a certain topic? We can tailor learning to help you to boost your numeracy skills. Whether you need help managing your bills, budgeting or want to improve your potential at work, this is the course for you.

Entry Requirements:

There are no entry requirements for this course.

Assessment Information:

During the session you will complete an informal maths activity to help the teacher understand your numeracy needs.

Fees and Financial Support:

This course is FREE to adult learners aged 19+ who have been a UK/EU Resident for 3 years or more.

Progression:

During the session you and your teacher will explore progression options depending on your individual needs.

What else do I need to know?

You will be asked to attend one face to face introduction session where you will be given all the details about how to access the online learning.

How do I find out more?
